Disbelief

they're laughing, they're laughing - once I...
they're nothing, they're nothing... once I...

don't try again

I really want to fly, I never give up hope - I cry

they know nothing from me, myself and I
they know nothing from me, myself and I

they're nothing, they're nothing - once I...

from me, myself and I

the start - your life - your death - your pride
