

# Mad Sick Mankind

Disbelief

First  
I wake up at night  
A vision starts to fly  
Here I start to die

Then  
It comes over me  
Creates horror, now  
Until I'm free

I say goodbye  
Until I kill and die

Life  
Passes fast away  
No feelings, more and more  
I'm in ecstasy

Nothing  
Is inside of me, now  
Come on, time has come  
The family cannot run

I say goodbye  
Until I kill and die

Mad sick mankind  
Mad sick mankind, mankind...

Christ  
Oh, what have I done  
My son, my wife, my daughter  
All are gone

Apathic  
I'll finish my work  
The blood runs cold in me  
I'll set me free

Mad sick mankind  
Mad sick mankind, mankind...
