The One

Disbelief

I'm the one – I'm the one

I've got all my memories, I'll never forget
I suffer in silence, step by step comes...
War inside, takes this life
Throw it away, where is your next place to stay, to
stay?

Can you understand me?
Why I do such things to them?
It surrounds me, I'll fly
My will achieved for him

Freedom, mine – freedom, mine – not for me!

I've got all my memories
I'll never forget
I suffer in silence, again
Again step by step comes war inside, inside!

I'm the one
I'm the one – I'm the one – I'm the one
Who prays for those who're gone

The dark places that I've seen
Never forget this horror scenes
Can't await to get back once more
To be part of the rage, against you!

Freedom, mine – freedom, mine – not for me!

I'm the one – I'm the one – I'm the one
To find peace for none, for none, for none
To find peace for none!
