

Why Don't You Shut Up

Disciple

Remain in me, don't sever me
Don't spit me out
Call on me and walk me to Your way
My lips aren't sealed

Some will say this and then some will say that
I really don't know just where you are at
If the truth be told, you're just getting to old
Moving way too fast, and getting to cold

You say that I should just give up
You say why don't you just shut up

You'll never shut me up
Forgive me if I should lose my way
Don't cut me off
Cause I choose You in my life today
Even if they hate me
