

# Sleep On The Wheel

Disco Ensemble

Just one more round  
And we're out of this place  
Wish us the best of luck  
We'll leave without a trace

There's a saying:  
Dead or alive  
I heard them saying:  
Dead or alive

And then I nearly slept on the wheel  
But your love kept me awake  
And then I nearly blew all away  
But your love kept me sane

Roll the windows down  
Get the smoke out of our clothes  
The fog has gathered over the road  
Just like a ghost

And then I nearly slept on the wheel  
But your love kept me awake  
And then I nearly blew all away  
But your love kept me sane
