These days you're doing very well no time for me I can tell You live in heaven I live in hell come down to earth, angel

These days you're moving very fast
You treat me like I'm second class
You try and pass me by but I wont let you pass
Come down to earth, baby come down to earth come down to earth

These days you seem to be on a roll No matter what the cost you must reach that goal Well, business is business no time for the soul Come down to earth, baby

Sometimes it's easier to forget
Pretend you don't know me easier yet
You think you don't have to pay your debts

Come down, come down, come down to earth

Come down, come down to earth I wish you should

I remember you, do you remember me?

And all the things we were going to do

Do you remember but I remember

These days you're doing very well no time for me I can tell

The word heaven I want to yell come down to earth, angel

These days you're moving faster you don't treat me as classier But I wont let you pass it on to her come down to earth, angel

Come down, come down, come down to earth Come down, come down, come down to earth Angel
