

Sex Will Keep Us Together

Divinyls

I don't like you too much but I love your touch
You treat me cruel you treat me mean
Then you make me feel like a queen
Nobody else will ever do
Cause what I want only comes from you

I say sex will keep us together
Get us through all kinds of weather
I love the way it keeps getting better
I say sex will keep us together

See the world in different ways
You're black & white I'm shades of grey
But in the end I just can't hide
My need for you is deep inside
Cause when we argue - when we fight
The best part is making up at night

I say sex will keep us together
Get us through all kinds of weather
I love the way it keeps getting better
I say sex will keep us together

You always seem to get it up when I'm down
That's why I'll always keep you around
