

## Higher Learning (Intro)

Dizzy Wright

Higher learning, higher learning, higher learning

I heard they praised me for being real, but I don't see the support  
Fell in love with changing lives and chose that over a sport  
Could've been anything in life and yet I'm out here on tour  
Like some day we gonna get bored and we gon' want more  
Pretty much prepping myself  
For the fans that finna get ahead of they self  
When they act like they know everything about me  
And all the niggas that doubt me  
Come outta nowhere and start criticizing all proudly  
Like "hold on nigga, where the fuck was ya'll at?"  
Buggin out on me, nigga fuckin' now, homie  
Some days I can feel Hopsin's energy rubbin' off on me  
Cause the love don't feel real if the talent is only a skill  
It's unrealistic to think that one day we won't make a mistake  
But who am I to say, it's probably from never taking a break  
Finding pleasure in poetry, guitar strings and a bass  
Uh, my life ain't been the same while on the run  
When these kids say "fuck a message, we just wanna have fun"  
Now I move to the beat that confused me for weeks  
While ya'll hands high, my head high like hold on nigga you lost me  
Then I looked at my Youtube views, and I got salty  
Cause I realised my real shit don't get that much love  
I see exactly how ya'll do ya'll favourite rappers  
Favorite musicians, athletes, actress, actors  
Spreading anything without it being the truth  
I guess to tarnish someones image these days is the thing to do  
But when you stop judging the music  
And you decide you wanna judge me on the way I live my life  
Cause I'm a celebrity and you can  
Don't be surprised if my response to the negative shit  
Is telling you to "suck my dick"  
I'm a grown ass man  
Grew up strong enough to deal with all these so called fans  
My momma say I got thick skin  
My daddy say they'll never really understand our struggle as kids  
Until the end, build off small wins, now here I am

Higher learning  
Higher, higher learning, baby  
Higher learning  
Higher, higher learning, baby  
Higher learning, baby, high learning, baby  
We learning, we learning, we learning, we learning  
Ohh, we learning, ohh, we learning  
We learning, yeah
