

Never Slipped My Mind

Dizzy Wright

I don't wanna trip about her, think about livin' without someone, on my grin
d

We work for this, I hit the road, I see my fans, you never slipped my mind
Natural beauty waitin' on me, never lonely, girl, you too damn fine

I'm like, "Suga, how you get so fly? Suga, how you get so fly?"

I don't wanna trip about her, think about livin' without someone, on my grin

We work for this, I hit the road, I see my fans, you never slipped my mind
Natural beauty waitin' on me, never lonely, girl, you too damn fine

I'm like, "Suga, how you get so fly? Suga, how you get so fly?"

I'm like, "Suga, how you get so fly?" I just wanna love

On you

Can't do everything right, didn't say I can't try

These girls ain't got nothin' to you

And I'm proud of the way you move, you move mountains today

And I love the way your skin glowin'

I can see happiness all in your face

Can't turn away, can't turn away

Even when you think you wanna run away

Even when you think you gotta let go

I learned new things, put in too much work

Think about it and I'm always like, "No way"

Support a young nigga on the come-up

Give me everything I need to be okay

Give you everything you need plus more, bae

That's a deep-rooted seated belief, yeah

Come with me on a cruise through a sea, yeah

Pick you up, we don't ever gotta meet there

And I'm all locked in, take vintage

Everything she got on match me, yeah

See the love in the air whenever we there

And the frames that I rock block all of these haters we got

Why not? I'm takin' my shot

I don't wanna trip about her, think about livin' without someone, on my grin

Breakfast in bed (Yeah)

Rosé with the roses (Roses)

'Cause I gotta go in the mornin'

Tonight we ain't sleepin', let's live in the moment (Let's live in the momen
t)

When I'm on the road, I need pics to my phone of you hittin' them poses

Gettin' exposed, keep the kid always goin'

Got me thinkin' about when I'm proposin'

I got a lot on my mind, I always put you in the front

No, there ain't much that I need but you the one that I want

The homies aware of the situation (Yeah)

Plus I got all of these women hatin' (Yeah)
'Cause they used to get it, now it's only for you
You the real thing, they your imitation
Wife you up and send an invitation
Fly to Dubai for a quick vacation
Had you in Greece in that all-white
Lookin' all nice, resemblin' an angel
That don't stop me when it's time to spank you
That don't stop me when I round the bases
If I can't answer, know I'm thinkin' 'bout you
Never drop you, shouldn't even have to say it

I don't wanna trip about her, think about livin' without someone, on my grin
