

Kiss Me Hard

DJ Antoine

I broke my phone
Lost my bike
I missed the bus the other night
One thing after the other went wrong
Put my middle finger to the sky
I had to laugh instead of cry
And then you came along

I think I kinda sorta like your face
I think now I could maybe be okay
I can't find the words
I usually have so much to say
It was you, it was you, it was you that made me wanna stay

Kiss me hard
I can't wait
I wouldn't have it any other way
Kiss me hard
I won't break
I wouldn't have it any other way
Kiss me hard

Kiss me hard

Kiss me hard
I can't wait
I wouldn't have it any other way

We hung out 'till 2AM
You bought me snacks
We almost kissed
You knew how to make me forget
All the bad shit that went wrong
When you showed up it turned around
If it all went right, we wouldna met

No, I still kinda sorta like your face
And now I know it's gonna be okay
I can't find the words
I usually have so much to say
It was you, it was you, it was you that made me wanna stay

Kiss me hard
I can't wait
I wouldn't have it any other way
Kiss me hard
I won't break
I wouldn't have it any other way

I wouldn't have it any other way
Kiss me hard
