It's my life

I try to be so free

It's my life It's my life It's my life It's my life I am dreaming in the sunshine I dream of all the people I talked to in my lifetime Different cultures, different nations Happy people, lucky people feeling my vibrations They just told me all the reasons I have to find my own way, don't change it like the season It's my life, I live it on my own Welcome to dangerzone It's my life I stand it all alone Accept my way of living I live it on my own It's my life I try to be so free 'cause freedom is the promise Of my destiny It's my life Oho ohoho I'm never gonna give it up Oho ohoho I never ever lose my aim Oho ohoho I'm never gonna give it up Accept my way of living It's my life Like my mother is holding my hand Whenever I'm alone, music is my best friend You're my passion, we're together Music is my life I wanna live with you forever There's no limit, celebration Everybody come and dance, feel the fascination Like a Rolling Stone into the microphone I live it on my own It's my life I stand it all alone Accept my way of living I live it on my own

'cause freedom is the promise
Of my destiny
It's my life

Oho ohoho
I'm never gonna give it up
Oho ohoho
I never ever lose my aim
Oho ohoho
I'm never gonna give it up
Accept my way of living
It's my life

I am dreaming in the sunshine
I dream of all the people I talked to in my lifetime
Different cultures, different nations
Happy people, lucky people feeling my vibrations

They just told me all the reasons
I have to find my own way, don't change it like the season
It's my life, I live it on my own
Welcome to dangerzone

It's my life
I stand it all alone
Accept my way of living
I live it on my own

It's my life
I try to be so free
'cause freedom is the promise
Of my destiny
It's my life

Oho ohoho
I'm never gonna give it up
Oho ohoho
I never ever lose my aim
Oho ohoho
I'm never gonna give it up
Accept my way of living
It's my life
