

# Take Control

DJ Bobo

Everybody take a chance, waving up your hands  
Can you feel this trance  
Everybody take a chance, waving up your hands  
Can you feel this trance  
Take control of your mind, your body and your soul  
Take control of your mind, your body and your soul

You take, you shake a break I'm not fake  
You're cool the way you move no more mistakes  
Can't stand still then you've got to move  
Feel the bassline, feel the groove  
The beat, the bass and the lyrics are fine  
Get on the floor you've got no time  
Party people I'll give you a chance  
Wave up your hands and feel in trance

Can you see now what I'm saying  
The beat is loud and I am playing  
Playing with your life, playing with your soul  
Here on stage and under my control  
So let the rhythm take you on the floor  
With a bass and a drum that you never heard before  
Open your mind 'cause I'm talking about dancing  
Open your mind, it's not romancing
