What good is it
for a man to, gain the world.
yet lose his own soul, in the process?
God loves you, yes he does
Said you're alright with him
I wonder

I know you never seen him but don't fight with him
You're gonna make it through the night to the light with him
Uh, you're alright with him
I said you're alright with him
(2x)

I'm callin' out to you Lord, because I need your help
See once again I'm havin' difficulty savin' myself
behavin' myself, you told me what to do, and I do it
But every and now and then, gets a little harder to go through
it
Losin' friends, day by day
I'm in so much pain when I'm here Lord, please take me away
I put you here to do a job, and your work ain't done
To live is to suffer, but you're still my son
And there will be a time when you shine as bright as the stars
But there won't be a, his or hers, just ours
Then you'll see what I've been tryin' to show you, all these
years
Do the right thing; cause after the tears, come the cheers
I will, my Lord, with my heart, and my soul
That's gonna be how I roll, from now until I'm old
Lead and I'll follow, you take away the sorrow
I'mma sleep on what you said and holla back tomorrow

I know you never seen him but don't fight with him
You're gonna make it through the night to the light with him
Uh, you're alright with him
I said you're alright with him

I want you to know Lord, that for what you've given me I'm
thankful
Sincerely, from the bottom of my heart, I'm grateful
You gave us power in our words, so I think before I speak
And that way when I speak, they know I'm here to teach
Can't tell em nothin' wrong, cause I love em too much
I reach a lot of people, and Lord, I'm lovin' the touch
But deep inside, I've got somethin' that's workin' against
everything I know is right, what I know makes sense
That's when you must fight harder, than you've ever fought
before
cause what you've got goin' on inside you is a war
between good and evil, be careful of those who want to be you
They smile, but are not really happy when they see you
Be careful of the ones that always want to get you high
Cause when the time comes, that one'll let you die
Listen to me! I'm here, but I can only help you
if you want me to help, what do you want for yourself?

I know you never seen him but don't fight with him

You're gonna make it through the night to the light with him
Uh, you're alright with him
I said you're alright with him

My Lord, my saviour, don't judge my behaviour
but instead, take what's in my heart and put it in my head
See I guess I really never knew, how proud I made you
My life is yours, my soul I gave you
I don't know if I'll do good enough (he's by your side)
And we both know the hood is rough (right by your side)
Sometimes I don't know what to do (X, dry your eyes)
But I know what I gotta do (it'll be alright)
You keep givin' me the word, and I'll put it to song
Talk to me, I'll talk to them, and we can't go wrong
This is the start of somethin' strong, and this is just the start
of it
Praises to you my Lord, for lettin' me be a part of it
I was that kid that, been there, did that
Became ashamed so I hid that
But, ain't no longer with that
Use me as an example - if I can do, then they can too
With the Lord behind us, there ain't nothin' that we can't do

I know you never seen him but don't fight with him
You're gonna make it through the night to the light with him
Uh, you're alright with him
I said you're alright with him

He's by your side
Right by your side
X, dry your eyes
cause it'll be alright
Yeah, he's by your side
Right by your side
X, dry your eyes
Cause, it's gonna be alright
Yeah yeah, yes it is
