Can you see the soul / through a window in your mind Can you see the darkness that was left me over time Bordering on sadness / no tranquility Look through my mirror and you'll see (So long) A vision come and gone (Inside) Nothing was clear Saving grace / Forgotten road I was lost / but now I'm home Saving grace / a ray of hope When I hear a Voice of the Soul Sold my religion / sold my candles too Knees have been bleeding / praying over you I search the heavens / all I ever see Dust from the ashes / misery (Rise up) Sleeping with misfortune (Temptation) A mirror of myself Saving grace / Forgotten road I was lost / but now I'm home Saving grace / a ray of hope When I hear a Voice of the Soul When the light shines above me And casts a shadow of myself Look to skies that surround me Embrace the one that speaks inside Delivered unto self Saving grace a ray of hope When I hear the voice (Of the soul) (Voice of the Soul) Saving grace (Voice of the Soul) When I hear the voice Hear the Voice of the Soul
