## **He Left Me Love**

## **Dolly Parton**

He left me love enough to last a lifetime a lifetime filled wit h loving memories And so I have no reason to search for new love time could never take his love from me And my mind is filled with mem'ries sweet and tender My heart is filled with love he left for me And each thought of him just makes the love grow sweeter He left me love to last eternally I just close my eyes and I still see him And in dreams he loves me just like he used to do Even wakes me with a tender kiss every morning A kiss that lingers on my lips the whole day through And my mind is filled... Oh yes he left me love
