

# You Can't Reach Me Anymore

Dolly Parton

You can't reach me anymore  
You say I'm not the girl that you remember  
You say that I hve changed so much and you can't seem to rach m  
e  
Well you destroyed everything I used to be before and you can't  
reach me anymore  
I was looked up to you while you were looking down  
It used to turn me off inside when you would turn me down  
Now you want the love from me that you destroyed before  
But you can't reach me anymore  
Now you say you love me more than anything  
I used to love you that way now I don't feel a thing  
The love that once lived in my heart don't live there anymore  
And you can't reach me anymore  
I was looked up to you while you were looking down  
It used to turn me off when you would turn me down  
Love that once lived in my heart it don't live there anymore  
And you can't reach me anymore oh oh oh no you can't reach me a  
nymore
