## **Automatic**

**Don Broco** 

Don't you wanna be automatic Don't you wanna live automatically Say you wanna Say the word Miracle cures You don't think twice You don't think about it

Something I heard You don't take a bite you won't know

Don't you wanna be automatic Don't you wanna live

Don't you wanna be automatic Don't you wanna live automatically Say you wanna Say the word And you're cured

Liberal words I won't tell your friends I won't tell your mother Out of this world You don't make this right you won't know

Don't you wanna be automatic Don't you wanna live

Don't think twice don't think Take that bite, take it

Won't you say the word And you're cured

Don't you wanna be automatic Don't you wanna live automatically Say you wanna Say the word Something that I gotta believe

Don't you wanna be automatic Don't you wanna live automatically Say you wanna Say the word And you're cured Say you wanna Say you're cured
