

Shadows

Donavon Frankenreiter

There's laughter from a distance
And there's music from a stranger's window
I was thinking 'bout hard times
Before you ever were mine
Before you ever came to me
And when i'm without you
Just can't stop thinking about you
And when i'm without you

And there's a shine burning in my eyes
Another shadow passing by

And watching shadows on the airplanes
I wish shells up there on that big sky train
I was headed back home to you
But i'm stuck here on this avenue

Lost in hells of blue
And when i'm without you
Just can't stop thinking about you
And when i'm without you

And there's a shine burning in my eyes
Another shadow passing by
And there's a shine burning in my eyes
Another shadow passing by

And i see the world outside
Say don't gonna pass you by
It will just straight on to your soul
And when it does, it won't let go

And i see the world outside
Say don't gonna pass you by, no
It will just straight on to your soul
And when it does, it won't let go

And there's a shine burning in my eyes
Another shadow passing by
And there's a shine burning in my eyes
Another shadow passing by
There's a shine burning in my eyes
Another shadow passing by
There's a shine burning in my eyes
