

New Beginning

Donell Jones

Yo, this a new beginning

Let me make sweet love to you, baby
I wanna show you what's next, it's too early, hah yeah
Light the perfumed candles baby
Like that fire and that scent you burn
From the petal to the chicks you've countered
Whenever we meet up it don't even matter
Just want to be in your friends every day
And making love to you is like a view that moves
It's an evolution to me, love and wait for me
You love and you feel true
Welcome to forever!
