

No Interruptions

Donell Jones

You know what I want
You know what I need
Come on and do me right, tonight
Girl there's so many things I want to do to you

Lay your body down let me take control of you
Do the things that lovers do, tonight
You better be prepared to stay
Cause you ain't leaving til' the next day
It's gonna be non-stop loving all night
I'll make you feel all right

You know what I want to do tonight, work your body inside
I, don't want no interruptions

Baby don't be scared, let me kiss your
body everywhere
pleasure is the thing that I want to give
to you
Close your eyes and get ready
It's gonna be non-stop loving all night
I'll make you feel all right
