

Be There

Donny Hathaway

Don't promise to be mine forever
Or even mine at all
Don't whisper words that are clever
Designed to make me fall

Just be there
Darling, be there

Don't move your eyes to deceive me
Or make your heart pretend

Just be there
Darling, be there

Just walk beside me
When I can't find my way
A little strength to guide me
Day after day

And if your heart should tell you
That you really care
Just be there
Just be there
Darling, be there
