

Stop The Clocks

Donots

Lies
Demand another lie
No matter how i try
Wish i could disappear
I know myself
I know myself well enough
Down
The only way is down
My face down on the ground
What am i doing here?
I know myself
I know myself well enough
And if i could stop the clocks
If i could make this moment mine
I'd make the most of a bad time
I wish i could stop the clocks
And wash away those lies
It's all that i could wish for tonight
Down
The only way is down
My face down on the ground
What am i doing here?
I know myself
I know myself well enough
And now my angels need angels
To help me get out of this hell
I know myself well enough
To know that i don't know myself
And if i could stop the clocks
If i could make this moment mine
I'd make the most of a bad time
I wish i could stop the clocks
And wash away those lies
It's all that i could wish for tonight
And if i could stop the clocks
If i could make this moment mine
I'd make the most of a bad time
I wish i could stop the clocks
And wash away those lies
It's all that i could wish for tonight
