Oh Gosh

Donovan

With your coats of many colors And the flowers in your hair You may love away the pleasant hours To think upon all that is fair

To look upon and to touch Oh gosh Life is really too much (Life is really too much) You'll see

With the babies in your bellies And the poems on your tongues Your only chance to see me on your tellies Giving love to the newborn ones

Think about it you'll agree
Many miracles you'll see
(Miracles you'll see)
You'll see

With the future safely dreamed of And his kisses on your brow Be only rest assured peace is coming To think upon love that is fair

To look upon and to touch Oh gosh Life is really too much (Life is really too much) You'll see

Soon, soon Soon, soon
