

Morning Star

Dope Stars Inc.

Killers on earth
Covered of dirt
Today are marching through

Nothing is new
Payment is due
And fears are coming true

Across the mess
Left is the quest
All I can tell you dude

No more abuse
Nothing is left to use

Living for dope
Visions o' lore
Slavering children crews

Chemical broods
Living suburbs
Drinkin' a ragin' brew

This world is a nest
Growing too fast
All I can tell you dude

Join me to cruise
Hunting the silent woods

Looking above the sky is turning red
No times have been so dark despite the blazes
I cross the shores, the soil for thousand days
Where the air is clear I know it's something rare
No more regret or time to think about
No more fear cause now is the latest round
And then a morning star will lead us all
Into the labyrinth for another fall
