

Heaven Tonight

Doris Day

Loving you
It's the best thing that I get to do
You make it easy and you're keeping it new
We'll be in heaven tonight

We have changed
We're not just children playing grown-up games
We're a little bit older but our love feels the same
It feels like heaven tonight

I'll stack the dishes
You lock the back door
We'll play some music
That is soft and sweet on your guitar
Heat up the hot tub
Here's your back rub
And you know it's always true when I say
"I love you"

Close your eyes
Dream of us and you'll be safe inside
You're an angel and you light up the sky
It looks like heaven tonight

Take out the scrapbook
We'll turn some time back
And see the change that we made in those old photographs
Since the first day
I feel the same day
And you know it's always true when I say
"I love you"

Loving you
It's stil the best thing that I get to do
You make it easy and you're keeping it new
We'll be in heaven tonight
See you in heaven tonight
Close your eyes
Feels like heaven tonight
