## Who Are We to Say (Obey Your Heart)

**Doris Day** 

Love may fill your heart with a strange delight Love may build a world that is new Love may leave your heart like a winter night No one knows just what love will do

Who are we to say
Just what love will do?
Love may live a day, or all life through

Who are we to say
How a rose will grow
It may fade away or bloom and blow

You and I may plan and scheme And every thing's arranged Then there comes a vagrant dream And all the world is changed!

When to say goodbye
Or to wonder why we two must part
So we live today loving while we may dear
Knowing love would say
Obey your heart

When to say goodbye
Or to wonder why we two must part
So we live today loving while we may dear
Knowing love would say
Obey your heart
