

Take No Prisoner

Doro

There's only one way
To keep me alive
I seek a new day
With no compromise
I know they all say
Just shut up or die
I know they're all afraid
They'd rather be blind
To all what's going on
Hatred and war and crime
We can not carry on
Leaving them all behind

Give me something
I cannot deny
We take no prisoners
Eye for an eye
Leaving nothing
And no one behind
All for one thing
Freedom in mind

Plead for giving
As much as you can
Start living
And making amends
I only live
To strive while I can
I feel compassion
And fight till the end
All that's going on
Hatred and war and crime
We can not carry on
And leaving them all behind
