

Goodnight song

Down By Law

Look at you sleeping there
I couldn't love anyone or anything more
you really are my angel from heaven
so thanks, god
wish I could tell you how much I love you
a 1,000 times a day
but I hope you can see it in my eyes
every moment that we're awake
and every minute that I dream
I dream of you
god that sounds like such a used line
but fuck it, its true
now most of my words are social
the human condition we all share
and i'm not very good with love songs
but I just saw you sleeping there
and I didn't want to wake you up
but I feel us so strongly right now
thanks for being so great
and thanks for being my friend
I know it's the same for you for me
I love you
etc.
Je t'aime
etc.
When you wake up, let's make out
