

## Rehab

Down

long day lay me low.  
lay me low.  
head burning drunk.  
I don't need none  
that's right man I'm fine  
but what I've got to know,  
is have I wasted time?  
My eyes are blind  
to almost everything you see.  
and I'm drowning through sorrow  
- you recognize me -  
be me for a change (fucked)  
under the silk,  
in a box of pine,  
and that's dying -  
not a single other life  
ever will have felt my price  
is it worth the risk to be revived?  
and I'm dying, I'm hollow  
- It won't deny me -  
be me for a change (fucked)  
on the last day  
they'll take it all away  
on and outta my mind  
gimme some medicine...  
and I'm drowning through sorrow  
- it won't deny me -  
be me for a change (fucked)  
yeah, one more time...  
long day kill me long
