

Broken Heart

Dr. Dog

I never really had a broken heart
I always played it kinda close to my chest
Love for me's just been a walk in the park
It doesn't really matter
I never really mattered
I never really had a broken heart
Such a shock to me
What looks to me like people going through the motions
But when it's over their hearts are broken

I'm fine on the shelf
She really loved him, I couldn't see it though
He really loved her, but I don't believe it oh no
I'm fine on the shelf
She really loved him, I couldn't see it though
He really loved her, but I don't believe it oh no

Freedom from love
Freedom from the heartache

I never really had a broken heart
You don't believe me, just look at my chest
The way some people like to run and hide
I never really, really
I never really

I never really had a broken heart
I've never really ever been undone
It's just playing house
Two can do it, you can do it two
