The Truth

The truth don't stop It makes you move Round and round Like the moon It's coming down

The truth don't stop It's really coming The truth don't stop It's falling hard The truth don't stop Another day The truth don't stop Thunder and lightning

The devil's done I paid my dues But he just won't quit He don't like to lose It's coming down

The truth don't stop It's really coming The truth don't stop It's falling hard The truth don't stop Another day The truth don't stop Thunder and lightning

Let the rain fall Let the rain fall Let the rain fall Let the rain fall Let the rain fall
