I Gave Her Comfort

To think that I'm the kind of guy whoever could have kept her Would be taking too much credit on myself And seeing us together you just knew that she'd look better With somebody else

Dr. Hook

And now she's gone, no-one's surprised Least of all not me I always knew that I was just a comfort In her time of need

Just a comfort, just a comfort in her time I gave her comfort in her time of need Gave her comfort, gave her comfort in her time I gave her comfort in her time of need

You knew that we had plans for San Francisco in September But I didn't see California in her eyes And by the end of summer, someone made a better offer You know, I'm not surprised

Just a quick goodbye, nobody's crying, no, nobody's crying I always knew that I was just a comfort in her time of need

Just a comfort, just a comfort in her time I gave her comfort in her time of need Gave her comfort, gave her comfort in her time I gave her comfort in her time of need

Just a comfort, just a comfort in her time I gave her comfort in her time of need Gave her comfort, gave her comfort in her time I gave her comfort in her time of need

Just a comfort, just a comfort in her time I gave her comfort in her time of need
