

Years From Now

Dr. Hook

Years from now
I'll want you years from now
And I'll hold you years from now
As I love you tonight

You are my one true friend
Always my one true friend
And I'll love you til life's end
As I love you tonight

I know this world that we live in
Can be hard now and then
And it will be again
Many times we've been down
Still love has kept us together
The flame never dies
When I look in your eyes
The future I see

Wanting you years from now
And holding you years from now
And loving you years from now
As I love you tonight

I know this world that we live in
Can be hard now and then
And it will be again
Many times we've been down
Still love has kept us together
The flame never dies
When I look in your eyes
The future I see

Wanting you years from now
And holding you years from now
And loving you years from now
As I love you tonight
