

# A Little Closer to My Home

Dr. John

Run around  
What's the frequency you're on?  
Get around  
That's addiction you'll get some  
Heart attack  
Not as big as the next one  
Pulling back  
Things look different when you're young  
Can't find a, good reason  
Can't fight this way I'm feeling  
These jealous, teenagers  
That laugh at my behavior

You'd be better off without me  
Hate to see you sorry  
Days are closing in  
You're better off with him  
It's boring but I'm making  
Promises I'm breaking  
Days are growing thin  
You're better off with

Anyone  
Makes no difference just pick one  
Get around  
What's the frequency you're on  
You're scared around  
Conversations you're never wrong  
You're better off  
New relations  
You're better off  
You're better off

You'd be better off without me  
Hate to see you sorry  
Days are closing in  
You're better off with him

It's boring but I'm making  
Promises I'm breaking  
Days are growing thin  
You're better off with

I can't take it anymore  
I can't concentrate  
You run around  
In my brain, yeah you run around  
You're not having fun no more  
There's a thousand ways  
You get around  
In my brain, yeah you get around  
Run around, what's the frequency you're on?  
Get around, what's the frequency you're on?

You'd be better off without me  
Hate to see you sorry  
Days are closing in

You're better off with him  
Its boring but I'm making  
Promises i'm breaking  
Days are growing thin  
You're better off with  
You'd be better off without me  
Hate to see you sorry  
Days are closing in  
You're better off with him  
Its boring but i'm making  
Promises I'm breaking  
Days are growing thin  
You're better off  
You're better off  
You're better off with him
