

Everybody has an advisor  
Who advises the advisor  
And nobody thinks for their-self Who Thinks for everybody else

Gotta listen to learn  
Learn to listen  
If you ever want to know all that stuff your missin  
Listen close take heed  
You might hear a little something that you need  
Listen up listen at me  
Better learn to listen

If your use to someone lookin over your shoulder  
How you gonna grow any wiser and older  
Now if you don't listen close at  
Your teacher how can they understand and reach ya

Facts of life come  
Down to common sense  
Now what you don't learn in school you might learn from experience ha  
rd knocks could  
Break a head hard as wood  
Open mind gonna catch anything  
It understood

Gotta listen to learn  
Got to learn to listen  
If you ever wanna know all that stuff your missin  
Put down that beer, turn off the TV, turn off that FM and the CD bett  
er listen at me  
Better learn to listen  
Take that cotton out your ear  
Stuff it in your mouth  
Crack back, chill out, that's what I'm talkin about  
Turn down that VH1 and MTV  
Turn off your Walkman turn down the B E T. Learn to listen  
You gotta listen to learn  
Sometime you act like a know it all, better be real.
