

Body and the Beat

Dragon

I'm talking 'bout the body the body and the beat

Do wonder what hits when it shakes your body
Do you wonder what shakes the world
Your heart is thumping and you don't know nothing
You wake in the morning and your heart is pumping

And the beat comes down is it falling on you
And the beat comes down does it make you shout
And the beat comes down give you some reaction
And the beat comes down am I in or out

I'm talking 'bout the body the body and the beat

Do wonder what hits when it shakes your body
Do you wonder what shakes the world
Your heart is beating and your head is thumping
Can't stop moving and you can't stop jumping
And the beat comes down is it falling on you
And the beat comes down does it make you shout
And the beat comes down give you some reaction
And the beat comes down am I in or out

I'm talking 'bout the body the body and the beat
