

Remembrance Day

DragonForce

Fallen souls in fields afar, eternal hearts on fire
Rows and rows of endless ghosts, memories inspire
Dreams of glory, dreams of war, a generation died
Through the trenches, hear their songs at where their past repl
ied

Stand up and fight, march at first light
Into the great battle we ride
Onwards tonight, wait for the strike
Brothers in arms reunite!

Guardians of heaven, in the night skies together
Remember forever through the centuries of time
Honor and glory, we salute you the fallen
United we stand, the hearts of great men
We'll raise a flag high for the heroes of their time!

Photographs of sons long gone and dusty picture frame
Cross this stand on foreign lands and memories never fade
Fields now green with what once were a million warriors lay
Hear the stories gone untold on this remembrance day

Stand up and fight, march at first light
Into the great battle we ride
Onwards tonight, wait for the strike
Brothers in arms reunite!

Guardians of heaven, in the night skies together
Remember forever through the centuries of time
Honor and glory, we salute you the fallen
United we stand, the hearts of great men
We'll raise a flag high for the heroes of their time!

For the king
For our queen
For the glory of our great country

On the land
On the sea
For our homeland we fight
(Fight to be free)
