

Gold Medal In Metal

Dream Evil

In a competition they don't hold up in the test
In this hall of fame
There's just no room for second best
Can't succeed if you cut corners
Even if you've inked with Warner bros

Gold medal in metal
We're going straight to the top
Gold medal in metal
We'll never ever give up

Some would sell their mother
For the precious number one
What we wouldn't give to sing
"we are the champions"
No one said it would be easy - No!
Face it! Easy com means easy go...

Gold medal in metal
We're going straight to the top
Gold medal in metal
We'll never ever give up

"All rise!", the judges cry
"The jury's reached a verdict now!"

"Alright", the crowd replies
At once, "Now give us the results"
"All hail - the holy grail
Of gold goes to the chosen ones"

Gold medal in metal
We're going straight to the top
Gold medal in metal
We'll never ever give up
Gold medal in metal
We're going straight to the top
Gold medal in metal
