

It Sounded Like An Accident

Drop Dead, Gorgeous

Soaked in blood, only to be sterilized.
Served alive, I want to be traumatized.

Don't tell, don't tell.
Keep this in your locket.

Soaked in blood, only to be sterilized.
Served alive, I want to be traumatized.

Wade in the water.
Careful for sharks.
Wade in the water.
But not for too long.

The pain is deep and wide.
Cannot escape from the lives we have made.
Where are we now?
I'm starting to forget just what it was you said exactly.
The love is gone,
only to spawn
Disastrous memories.

I'm starting to forget.
I'm trying to hold on.

Soaked in blood, only to be sterilized.
Served alive, I want to be traumatized.
