

Knife Vs. Face Round 1

Drop Dead, Gorgeous

I can't sleep tonight, let's go
stab me, directly in the heart
watch me bleed; I'm lying at your feet
dying, living for just one last breath with you
I live, for you and only you
stop lying; you know I'd lie with you
we're dying on the inside
you're smiling on the outside
settle the score. Knife vs, Face round 1
forget the taste of me and follow your instinct
