Stronger

Dub Pistols

So contagious, rap pages Life's the greatest Glad they made us Hey I got the status of courageous Lions in the cages You go through stages See the faces of the different places Meet on a daily basis Never know who's gonna change us It's the strangers, like the dangers in the language Like the way we walk, our body talking Like were gangsters Still were nameless And were shameless Gonna find a way to make you famous Spend your soul Make you brainless Sell your dreams Make you stainless Steel, so you can no longer feel What's really real But still were gonna find the ones that's real To show us the deal Who's gonna make you jump? Said who's gonna make you jive? Say who's gonna come and try and analyse this one? Whos gonna make you scream? Said who's gonna make you shout? Said who's gonna make you wonder what it's all about? Who's gonna make you laugh? Said who's gonna make you cry? Say who's gonna make you stay up and wonder why? Who? who's gonna come in to your life now? Who come to make you stronger? Yeah it could have been nice If that path we had gone And the verse it was vice Checking roads that I take Never know want comes next Who you tryng to fool? Some fools trying to flex Oh you trying to stay cool with the soem it's best Take two to the chest

Then pass to the rest If you aint got the best

Then you ain't living blessed Means you sitting on stress like a bird on a nest

Who's gonna make you jump? Said who's gonna make you jive? Say who's gonna come and try and analyse this one? Whos gonna make you scream? Said who's gonna make you shout? Said who's gonna make you wonder what it's all about? Who's gonna make you laugh? Said who's gonna make you cry? Say who's gonna make you stay up and wonder why? Who? who's gonna come in to your life now? Who come to make you stronger?

Waking up like a stranger Creeping out through the danger Kalidescope eyes Out late telling lies I'm the one you despise The one you love to hate The one sneaking out of the bed when it's late Can't be stuck in the past Four corners form the mast Speak in to the black hole Now you've lost all control While I'm out doing dirt Getting hurt, I've been told That I'm still chasing shadows Whilst my demons take hold.

Who's gonna make you jump? Said who's gonna make you jive? Say who's gonna come and try and analyse this one? Said who's gonna make you shout? Said who's gonna make you wonder what it's all about? Who's gonna make you laugh? Said who's gonna make you cry? Say who's gonna make you stay up and wonder why? Who? who's gonna come in to your life now? Who come to make you stronger?
