Dubioza Kolektiv

Things are about to explode  
Like a dubnamite (Hey)  
Let us all unite and I'm sure we're gonna  
Make it right.

Now come up like a dubnamite  
From each and from every side  
Release off your chains  
Boom-explode like a dubnamite  
All my people will be free  
Freedom is now all we need  
If you would just set us free  
We can show you quality.

2x  
I cannot let anyone crash me over  
As I stand on my course  
I'm not afraid of anything that's blocking me  
I'm not afraid of human force.

Read it man, feed with man  
Breed it man, feel with man  
Touch the light, walk at night  
Be all right, all the life  
Open wide, get way out  
Talk about, get it strong.  
Can't be wrong, don't lose hope  
Be so proud

Recognize, realize  
Stop the lies, be a wise  
Search the past, get a bless  
Take a rest, slow progress  
Find the key, follow me  
Where it is, have belief  
All my people will be free  
Freedom and equality.

Today decisions is a threat  
So we usually turn our back  
Turn our faces to the other side  
Don't you ever swallow their lies  
Oi, dreams are spreadin'  
Chances waiting  
Way too long going  
Way to strong showing  
Mostly mistaking  
Countinue faking  
Who do we attend to deceive  
We should just belive.

Justice is so far and the people suffer  
The rich is getting richer  
And the poor is poorer  
Many of them think  
That they are really high above the law  
Don't you mess now with the people

We can show you how you fall  
Just want to say to the government  
We can no more tolerate  
Those who sleep in Parliament  
We can no more tolerate  
Step back, hit the brakes, all of that  
We can no more tolerate  
We can no more tolerate  
We can no more tolerate.

We'll never change our riddim'  
That's how we're goin' to fight within

Justice is far from this land  
Justice is far

Justice is far  
Man you can't get nothing but war  
Why? Why? Why? Why? Why?  
Why just can't get nothing bur the war?  
Why you're wasting' you precious time?  
Why you're losing all, where ang porqua?  
Why you're losing mind in the games of war?  
In the games of war...

We'll never change it, our riddim'  
That's how we're goin' to fight within.
