

# Change the Skyline

Duran Duran

This is where it starts  
Standing on the roof up here  
Saying goodbye to darkness  
Now I can see the big idea  
Cities East and West  
You won't miss me when I'm gone  
The only thing that's left  
Is the feeling that I'm moving on

So you walk the line  
But something inside you says no way  
Are we losing time?  
Cuz I waited long enough

I can change the skyline  
Out of range but in time  
Time to change the skyline  
I see far horizons

An empire in a day  
Built on hope and burnt by the sun  
But I'm happy to watch it fade  
When I can raise it up again

You're opening my eyes  
Maybe it's not impossible  
And don't you think it's time?  
Cuz I waited long enough

I can change the skyline  
Out of range but in time  
Time to change the skyline  
I see far horizons

I can change the skyline  
Out of range but in time  
Time to change the skyline  
Icy far horizons
