

Danceophobia

Duran Duran

Comin' over ya
Danceophobia
Comin' over ya

You on the floor
Whatcha gonna do?
I'm in the system
I'm trying to get to you
We've both waited
For so long
Nothing can stop us
C'mon this is our song
Look around, forget the crowd
Take my hand and sing it loud

I know what it is comin' over ya
You don't dance danceophobia
I know what it is comin' over ya
You don't dance, no no no. You don't dance

You in the car
Where ya going to?
Turn up the volume
Am I getting through to you?
Open the window
L'see what you got
I'm in the speakers
It's time we hit the road.
Look around, forget the crowd
Take my hand and sing it loud

I know what it is comin' over ya
You don't dance danceophobia
I know what it is comin' over ya
You don't dance, no no no. You don't dance

Can you hear me? If you can hear me, let me know.
I am your doctor.
You may be experiencing feelings of confusion
Don't be afraid. I've seen these symptoms before—ten, twenty new cases each week.
We call this condition Danceophobia.
I'm going to keep you in for observation. I may have to work on you throughout the night.
We have to trust each other. And together, I think we can beat this thing before the music ends.

I know what it is comin' over ya
You don't dance danceophobia
I know what it is comin' over ya
You don't dance, no no no. You don't dance
