Duran Duran

Em

Stood on the line
you understand
I've been waiting forever
come rain, come shine
In the wind and snow
In the filthy weather

Am **C** **Em**

you got it all worked out

Am **C**

Yeah, but it knocks you out

Em

I'm zoomin' In

Em

Now she arrives
in a flaming crash
like a falling star
heading straight for the dive
gonna make some cash with that avatar

Am **C**

You got it all worked out

Em

I know you know I don't want you to go

Am **C**

yeah but it knocks you out

Em

I'm zoomin' In on you on you

Em

Don't look back - heart attack

Am **C**

you got it all worked out

Am **C**

yeah but it knocks you out

Em

we're not alone in the second life
there are millions like us
right here in the stones
in the air too bright
for the new insiders
