

## Candy Now

Dwarves

I'm gonna take a little walk outside and see the sun shine - it  
's alright  
Like congregating, when they're really fly, you win the fist fi  
ght - it's outta sight

I love it when you call and I'm not home  
I know you gonna fall for me - never alone

I'm gonna take you to the TV eye and you can feel that it's alr  
ight  
Take Edgar Hoover from the FBI, we're gonna steal that - it's o  
utta sight

I love it when you knock and my door's locked  
And then I get a shot from the vote in your sock  
Rock!

Candy now, now  
Candy now, Candy now  
Follow the beat  
Together now

It's alright  
It's outta sight

Candy now - Follow the beat  
Candy now - Together now  
(2x)  
Follow the beat  
To hear the beat  
Together now  
Candy now
