

## Saturday Night

Dwarves

It was Saturday nite, the moon was bright  
Shining down, it's harvest light  
Music all around to hear, set the stage  
And atmosphere--many dress to suit  
Their taste, participate in the ego race  
Tonight's the night, for you to be  
Biggest man in history

Saturday nite's your curtain call  
You found your place after all  
I saw a face in the crowd  
Sayin' nothin', yet talking loud

Life is just a day  
Living games we play  
London Bridge is fallin' down  
Do what Simon says  
Doing what you feel,  
Games can be unreal  
Humpty-Dumpty when you fall  
There be no one here to call  
Life is stil your mystery  
You see, you see, you see

Many friends, who gather 'round  
In hope, to feel safe and sound  
We emphasize, to make it clear  
Our stumbling nations atmosphere  
While looking thru the looking glass  
Our vision show, a stormy past  
When you gonna wake, and see the sun--  
Stop wasting time and having fun

Life is just a day  
Daily games we play  
London Bridge has fallen down  
You did what Simon said  
Doing what you feel  
Games are so unreal  
Humpty-Dumpty why'd you fall  
You see there's no one here to call  
Now we've solved this mystery  
You see, you see, you see
