

Until the World Knows Why

Dymytry

Down by the sea, you would scream my name
And up in the sky you could see me flying
Don't you wanna stop me from reaching the sea?
Don't you wanna grab me to make me feel?
Ain't you gonna scream to make me stay?
Ain't you gonna make the pain go away?
Go away

I'm never gonna stop, no
I'm never gonna say goodbye
I'm never gonna stop, no
Until the world knows why
I'm never gonna stop, no
I'm never gonna say goodbye
I'm never gonna stop, no
Let's overcome all lies

When I say your name
I have gone up into flame
I will see your face
It's the hardest part to let go
When I say your name
Things will never be the same
I will see your face
It's the hardest part to let go

It's the hardest part to let go

Open your eyes
You can feel me now
Reach out your arms
And you will see us flying
I know, try to stop me from reaching the end
I know you try to cherish the time we spent
Ain't you gonna join? Please don't stay away
Now it's the time to make the pain go away
Go away

I'm never gonna stop, no
I'm never gonna say goodbye
I'm never gonna stop, no
Until the world knows why
I'm never gonna stop, no
I'm never gonna say goodbye
I'm never gonna stop, no
Let's overcome all lies

When I say your name
I have gone up into flames
I will see your face
It's the hardest part to let go
When I say your name
Things will never be the same
I will see your face
It's the hardest part to let go

Together in darkness, your touch will heal my wounds

All alone in infinity, our love outlives our tombs

When I say your name
I have gone up into flames
I will see your face
It's the hardest part to let go
When I say your name
Things will never be the same
I will see your face
It's the hardest part to let go
It's the hardest to let go
