

# Go Simmer Down

Eagle Eye Cherry

I've been busy and un-pleasured in this iron zipper  
ride  
Just wish I didn't miss you this much  
I'd rather take my chances riding this avalanche  
If it means that I don't feel my bones are being  
crushed

That's when it seems like I'm stuck on the good years  
How did I get here?  
We're on repeat and we're going nowhere, yea

Why you fire up yourself?  
Go simmer down  
Why you fire up yourself?  
Go simmer down

When you feel the freeze  
Go simmer down  
When you feel the freeze  
Go simmer down, go simmer down

I've been spending ammunition and missing you like  
addiction  
Now my bruises feeling sore to your touch  
I'd rather dig in in religion and buy some shit I'm in  
Just makes it difficult to get the rush

That's when it seems like I'm stuck on the good years  
How did I get here?  
We're on repeat and we're going nowhere, yea

Why you fire up yourself?  
Go simmer down  
Why you fire up yourself?  
Go simmer down

Why you fire up yourself?  
Go simmer down  
Fire up yourself  
Why you fire up yourself?  
Go simmer down

When you feel the freeze  
Go simmer down  
When you feel the freeze  
Go simmer down

Who didn't like to live up all night  
And your feet don't touch the ground

When you feel the freeze  
Go simmer down  
When you feel the freeze  
Go simmer down  
When you feel the freeze  
Go simmer down

Who didn't like to live up all night  
And your feet don't touch the ground

When you feel the freeze  
Go simmer down, go simmer down
