

Picture Me

Eagle Eye Cherry

Picture me walking on Bleaker to 7
Picture me thinking of you less than ever
Picture me stuck in a cab going 'cross town
Reaching for dial on the stereo when your song comes on

Picture me falling apart
Picture me falling apart again
Picture me falling apart
Just as I was on my feet again
Picture me falling apart
I will get myself back up again
Picture me falling apart

Picture me keeping my mind on what matters
Picture me watching the calls on you scatter
Like I don't care
Picture me riding a train going out of town
I'm reaching for your legs and your cover strapped your
face up on it

Picture me falling apart
Picture me falling apart again
Picture me falling apart
Just as I was on my feet again
Picture me falling apart
I will get myself back up again
Picture me falling apart
Picture me falling apart
Picture me falling apart

I keep it together like you were never mine
I keep it together like you were never mine
I keep it together like you were never mine
I keep it together like you were never mine

Picture me falling apart
Picture me falling apart
Just as I was on my feet again
Picture me falling apart
I will get myself back up again
Picture me falling apart
Just as I was on my feet again
Picture me falling apart
I will get myself back up again
Picture me falling apart
Picture me falling apart
Picture me falling apart
